

RUTH LEE™

BARIATRIC TRAINING MANIKIN

FOR PROFESSIONALS WHO SAVE LIVES

Ruth Lee is a family business whose core values revolve around the care of our employees, service to our customers and uncompromising product quality. We are proud to serve YOU, the dedicated professionals who make such a valuable contribution to society.

We employ highly skilled people and source the most durable materials to ensure our products meet the highest international standards.

Our manikins are designed to represent the correct anatomic weight distribution of a real person, and we offer a range of different models to suit every conceivable scenario. This ensures that your training is as realistic and as effective as possible; preparing you for all eventualities.

AVAILABLE THROUGHOUT IRELAND WITH PHOENIX STS:

BARIATRIC TRAINING MANIKIN

IDEAL FOR THE FOLLOWING TRAINING SCENARIOS:

Obesity is a very real problem in the UK and other western countries. How would your team deal with an obese casualty who has suffered a heart attack in a bathroom at home, or in a lift at the local shopping centre? RTC extrications present an extra challenge with obese passengers, and staff at care homes, hospitals, prisons, hotels and airlines will be increasingly confronted with scenarios requiring realistic bariatric training.

SPECIAL MATERIALS:

Constructed from the same flame retardant material used in Police ballistic/stab vests, offering 4x the strength and abrasion resistance of 16oz canvas or P.V.C. (conforms to OEKO-TEX® Standard 100, BS EN ISO 12947-2 & 14116: 2008). High density polypropylene webbing (25mm rated to 207 Kg, 50mm rated to 440Kg).

FEATURES & BENEFITS:

- Tough enough to withstand being buried under concrete or steel lintels or driven over by a 4x4 vehicle.
- Water repellent material, making it suitable for wet or foul scenarios such as HAZMAT/CBRN.
- Specially designed to achieve a 'fluidity of movement' for more realistic handling.

AVAILABLE WEIGHTS & SIZES:

DESCRIPTION	MODEL CODE	HEIGHT (M)	WEIGHT (KG)	NATO STOCK #
Adult 90kg	RLN90B	1.8	90	N/A
Adult 180Kg	RLN180	1.8	180	N/A
Adult 260Kg	RLN260	1.8	260	N/A

Also ask about our Water-Fillable Bariatric Conversion Suit

- An immobilisation/extrication collar can be fitted around the neck of our adult manikins to promote proper casualty care.
- The manikins are designed to be carried by a team of at least 4-6 people and are supplied with a carrying sheet for easier handling and positioning. Safe working load 600Kg (LOLER certified).
- Comes complete with boots, bariatric pyjamas and carry sheet.
- The new 90Kg manikin is ideal when less weight is required without forfeiting the bulk and size.

NOT SUITED FOR:

- Use in temperatures above 100°C or flashover scenarios – See our **Fire House manikin**.
- Use in water – See our **Water Rescue range**.

OPTIONAL EXTRAS:

- Shoutbox and hood to give your casualty the power of speech to add extra realism.
- Face mask and wig for a more human-like appearance.

EXTENSIVELY USED BY:

- UK Fire and Ambulance Services.
- Specialist Training providers.
- Equivalent organisations across North & South America, Europe, Australia and Asia.
